Gangorra Polvo Maluco

ref. 0969.8

ASSEMBLY INSTRUCTIONS

Assembly video on YouTube:
youtu.be/N5vRQ7-QZE8

Product size: **1,60 × 1,60 × 0,73 m**
Seesaw for up to 4 children, with 4 colorful tentacles and the octopus head
Age: 3+ years. Maximum weight of 25 kg per seat.
Assembly by an adult, no tools needed.
6 steps · keep this manual for future reference.

BEFORE YOU START

Read carefully

Caution

Give this toy to the child only after it has been **assembled by an adult**, and always use it under **adult supervision**.

Assembly rules

- Assemble on **level ground**. To make it easier, rest one tentacle on the floor and push the other against it.
- The parts **fit without tools**. If a joint does not go in, check that the peg is facing the opening.
- The four tentacles are **the same**: the colors can go in any order.
- The head only locks after you **turn it clockwise until it clicks**.

Tools

- **No tools needed**: all the parts fit together

The seesaw has no screws.

PRODUCT ASSEMBLY

Step by step

In each step, the arrows show where the part goes, the **black numbers** give the order and the **yellow letters** point to the details explained under the picture.

1 STEP 1 OF 6 · TENTACLES
First pair of tentacles

Rest one **tentacle** on the floor and bring another one up to it, at a **right angle**.

Fit the **peg at the base** of one tentacle into the **opening at the base** of the other and push until they touch: the two make an **"L"**.

> The colors can go in any order: the four tentacles are the same.

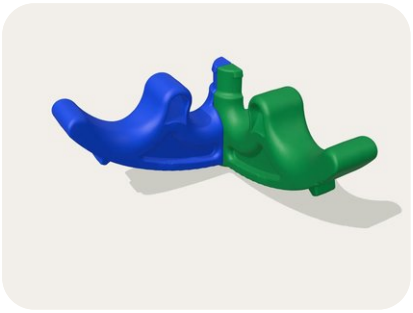

PARTS FOR THIS STEP

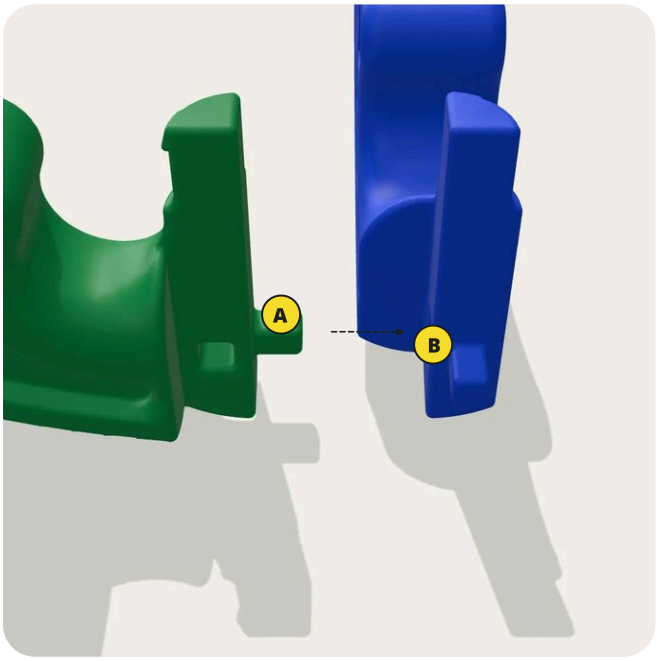

1× Blue tentacle
ref. 969805

1× Green tentacle
ref. 969806

How it looks at the end of step 1

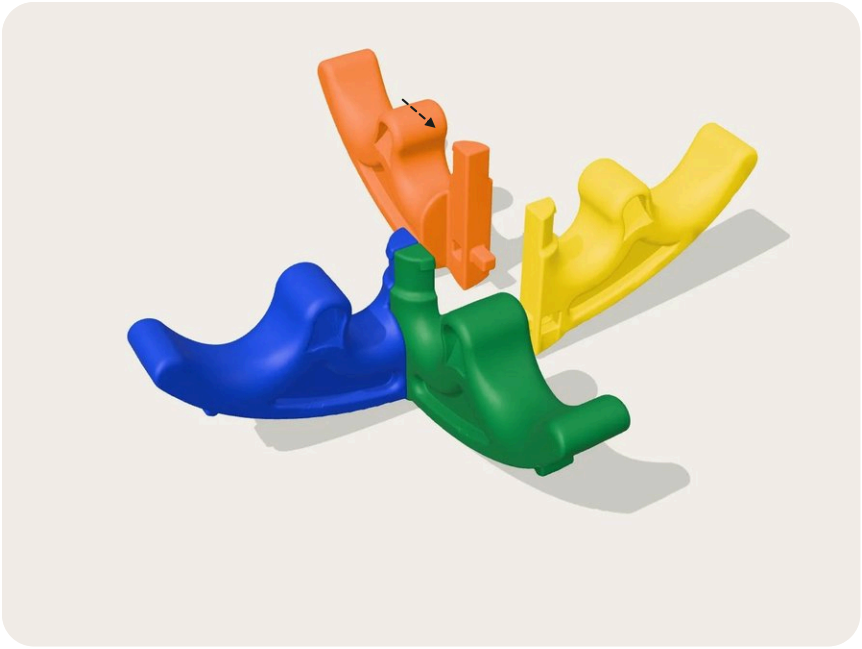

The peg at the base goes into the opening of the other tentacle

- **A** Peg
- **B** Opening

STEP 2 OF 6 · TENTACLES

2 Second pair of tentacles

Do the same with the other two tentacles: **peg into opening**, making another **"L"**.

You now have **two identical pairs**.

PARTS FOR THIS STEP

1× Yellow tentacle
ref. 969804

1× Orange tentacle
ref. 969807

How it looks at the end of step 2

STEP 3 OF 6 · TENTACLES

3 Join the two pairs

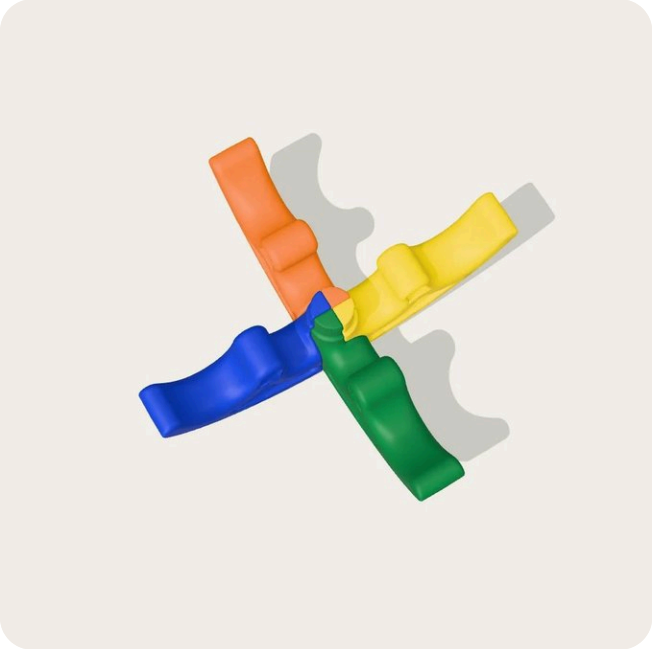

Place the two pairs **facing each other** and bring them together: the pegs of each pair go into the openings of the other.

Push until the four center columns touch. The tentacles make a **"+"**, with a **round column** in the middle.

How it looks at the end of step 3

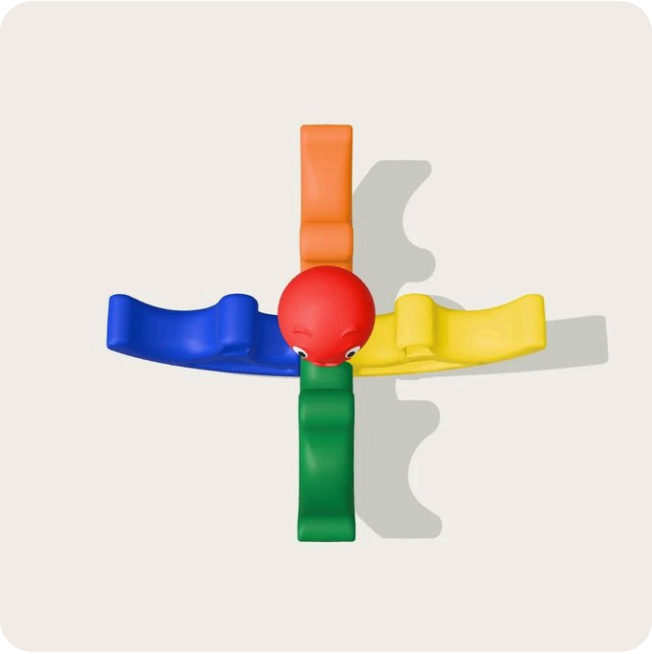

Seen from above: a "+" with the round column in the center

STEP 4 OF 6 · HEAD

4 Head

A Eyes towards one of the tentacles

Seen from above: the eyes are over one tentacle

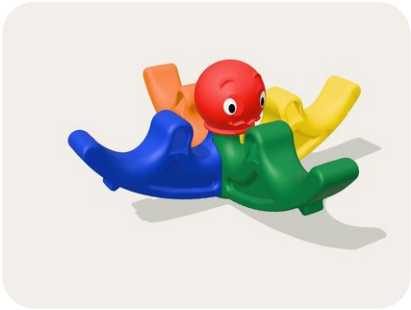

Place the **head** on the center column, with the **eyes in line with one of the tentacles**.

Press the head all the way down: it holds the four columns together.

PARTS FOR THIS STEP

1× Head
ref. 969802

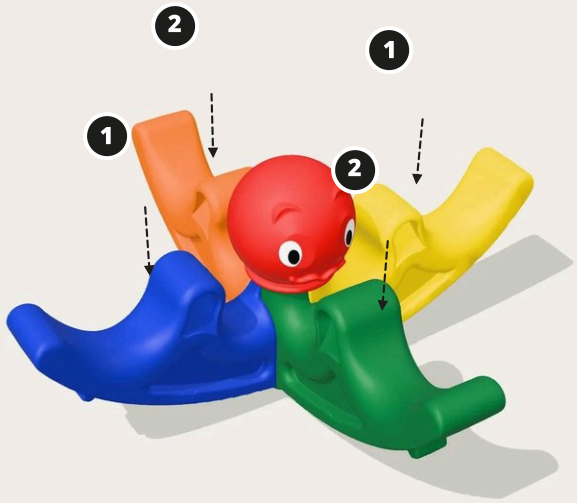

How it looks at the end of step 4

5

STEP 5 OF 6 · HEAD

Press the tentacles down

Press two **opposite** tentacles **down** (1) until the base is fully seated. Then do the same with the other two (2).

If the fit is not perfect, do it again.

STEP 6 OF 6 · HEAD

6 Turn the head

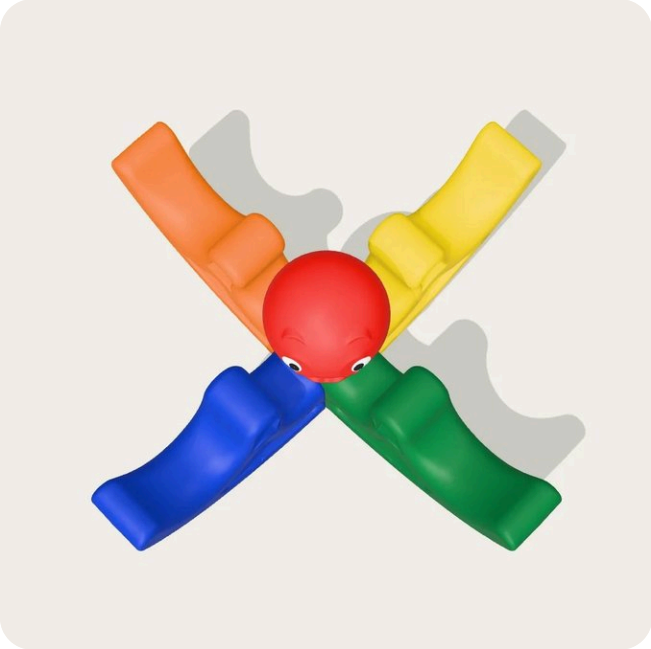

Turn the head **clockwise** until you hear a **click**.

The octopus's face ends up **between two tentacles**.

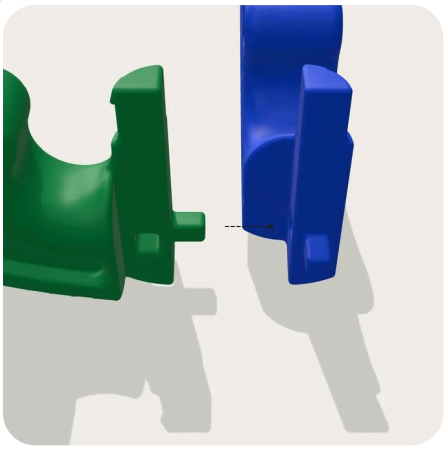

How it looks at the end of step 6

After the click: the face is between two tentacles

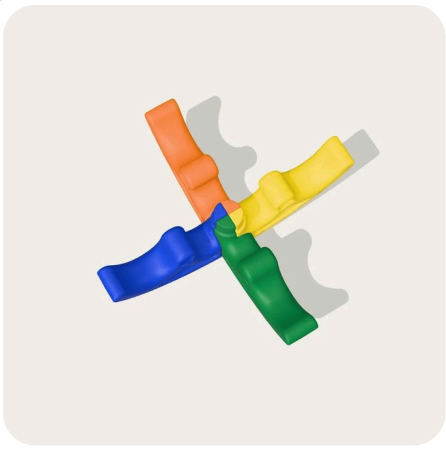

JOINT DETAILS

How each part fits

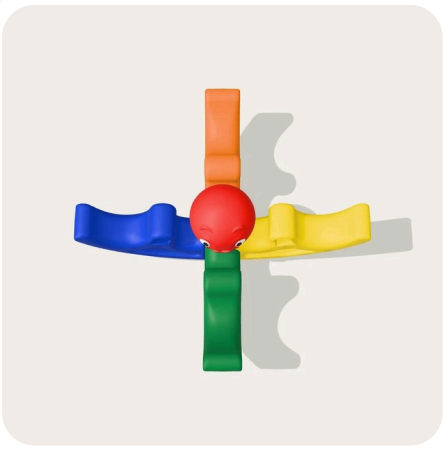

Tentacle to tentacle

The peg at the base of one tentacle goes into the opening at the base of the other, at a right angle.

The two pairs

Facing each other: the pegs of each pair go into the other, and the four columns make one round column.

Head

Goes onto the center column from above, with the eyes in line with one tentacle.

Head lock

Turn clockwise until it clicks: the face ends up between two tentacles.

Assembly complete

Check the product visually, making sure every part is fitted and firmly fastened. **Only then let children use it.**

Before letting children use it, check that the four tentacles are fully seated at the base and that the head has turned until it clicked.

INSTALLATION DETAILS

Location and safety area

To keep users safe, minimum spaces and free distances must be respected.

Circulation area: at least 1.20 m wide around the equipment, so users can run freely; at least 1.50 m where the path changes direction, so strollers and wheelchairs can get in and turn.

Fall space: neighboring static equipment with overlapping fall spaces must be at least 1.50 m apart for a fall height of up to 600 mm, and 2.50 m for higher falls. Maximum fall height of this product: **400 mm**.

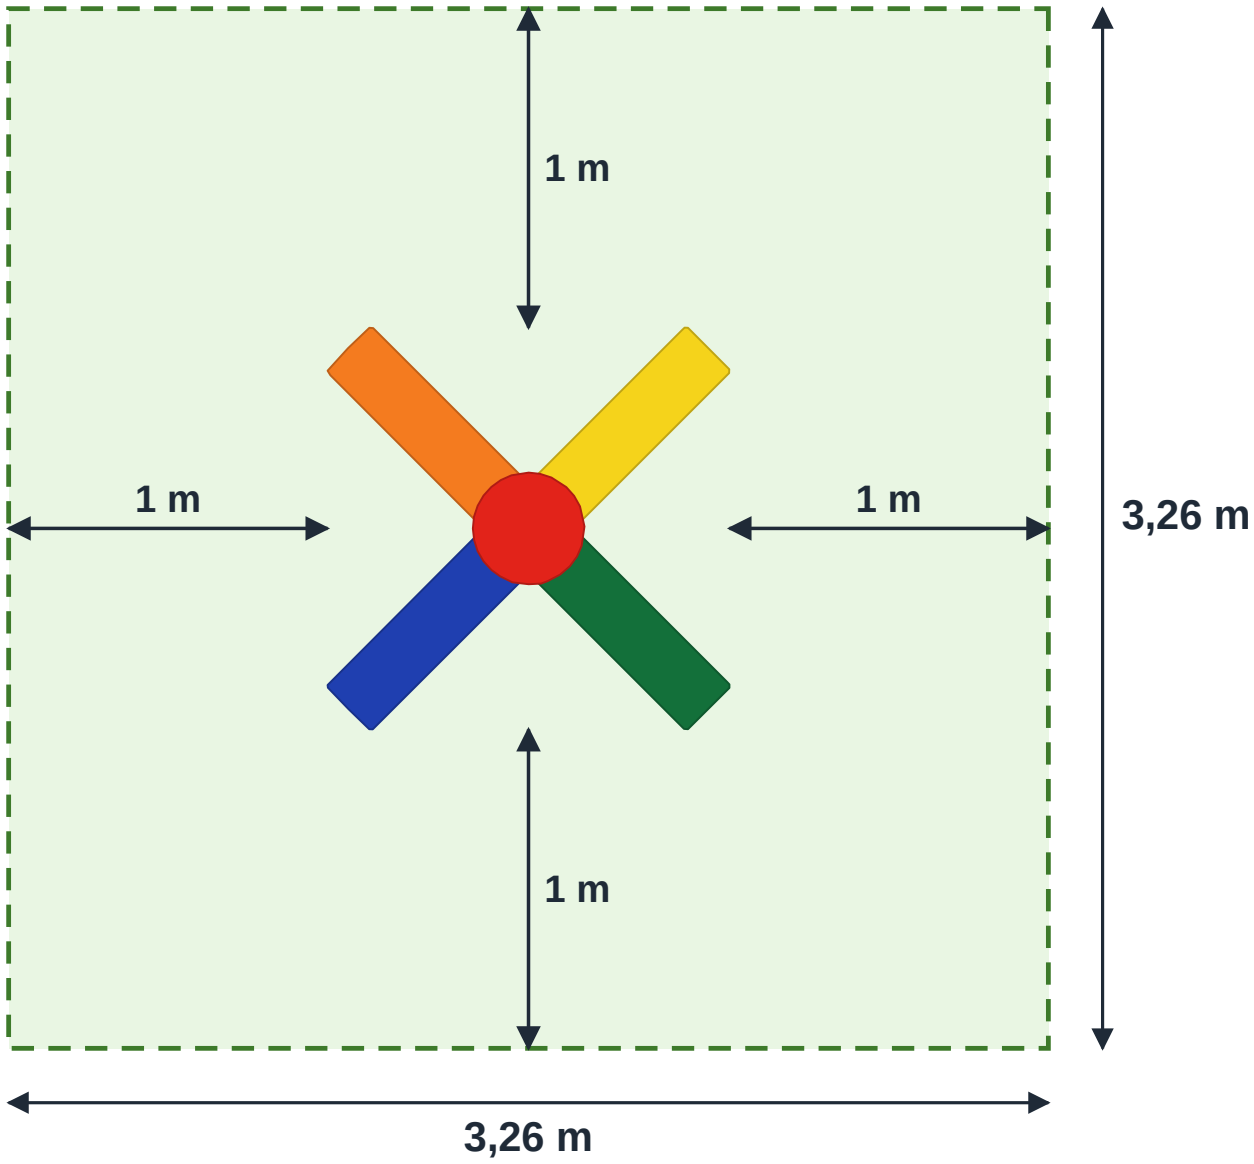

Ground: an even, continuous, stable surface that is non-slip in any weather, with no obstacles and a cross slope of no more than 2%. Use on grass, sand, carpet or another soft, level surface.

Location: first check for chemicals and loose material (rubble, sharp objects). Choose an airy place with morning sun, sheltered from drafts; do not install it in basements or garages. Never use it near stairs, roads, swimming pools, water or slippery places. If the area is fenced, the gates must open outwards and be at least 1 m wide.

Area reserved for installation and impact of this seesaw: about **3.3 × 3.3 m** (figure below): 1 m clear all around the seesaw.

Use: up to 4 children at a time, one on each seat, with a maximum of **25 kg per seat**.

To avoid accidents, the child should wear shoes. This product is not intended for commercial use.

Area reserved for installation and impact (top view). Keep the dashed area free of obstacles.

INSPECTION AND MAINTENANCE

Keep the playground safe

Visual inspection — daily

- Cleanliness
- Free distances between the ground and the equipment
- Ground surface finish and exposed foundations
- Sharp edges and missing components
- Excessive wear and structural integrity

Operational inspection — every 1 to 3 months

Pay special attention to the structural integrity of the product, besides the items of the visual inspection.

Main inspection — yearly

- Structure: bending, deformation and cracks
- Finish: cracks, chips, broken or open joints
- Missing, bent, broken, loose or worn parts
- Edges, pinch points, access points and protective surfaces
- Tentacle joints at the base and the head lock

Maintenance

- Tighten the joining parts and clean (do not use paints, solvents or other chemicals)
- Keep the free spaces and drain holes clean
- Replace fasteners and faulty or worn parts

As per NBR 16071-7:2012. Any change that affects safety only after consulting the manufacturer.
