Castelo Encantado

ref. 2061.0

ASSEMBLY INSTRUCTIONS

Assembly video on YouTube:
youtu.be/dz1gQFj2HYI

Product size: **1,70 × 1,88 × 1,88 m**
Castle with 4 towers, double doors, windows and 4 flags
Age: 2 years and up (24+ months).
Assembly by 2 adults, no tools needed.
Assembly is the same as the Castelo Real ref. 2062.1: only the colors change.
5 steps · keep this manual for future reference.

BEFORE YOU START

Read carefully

Caution

Give this toy to the child only after it has been **assembled by an adult**, and always use it under **adult supervision**.

Assembly rules

- Assemble with **two adults**, on **level ground**.
- The side wall hooks point **down**: the side wall always goes in **slightly lifted** and then **drops**.
- The parts **fit without tools**: do not force them. If a hook does not go in, check the height of the side wall.
- Looking at the castle from the front, the **planter** side wall goes on the **left** and the **brick** one on the **right**.
- The **roof** and the **flags** are the last parts.

Tools

- **No tools needed**: all the parts fit together

The doors come already fitted to the front wall. Assembling the castle takes no screws.

PARTS LIST

Castelo Encantado parts

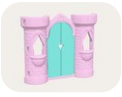

BACK WALL 1×
No. 1 · ref. 1830902

LEFT SIDE WALL (WINDOW WITH PLANTER) 1×
No. 2 · ref. 1830904

RIGHT SIDE WALL (BRICKS) 1×
No. 3 · ref. 1830903

FRONT WALL WITH THE 2 DOORS 1×
No. 4 · ref. 1830901

ROOF 1×
No. 5 · ref. 2061002

FLAG 4×
No. 6 · ref. 1830909

PRODUCT ASSEMBLY

Step by step

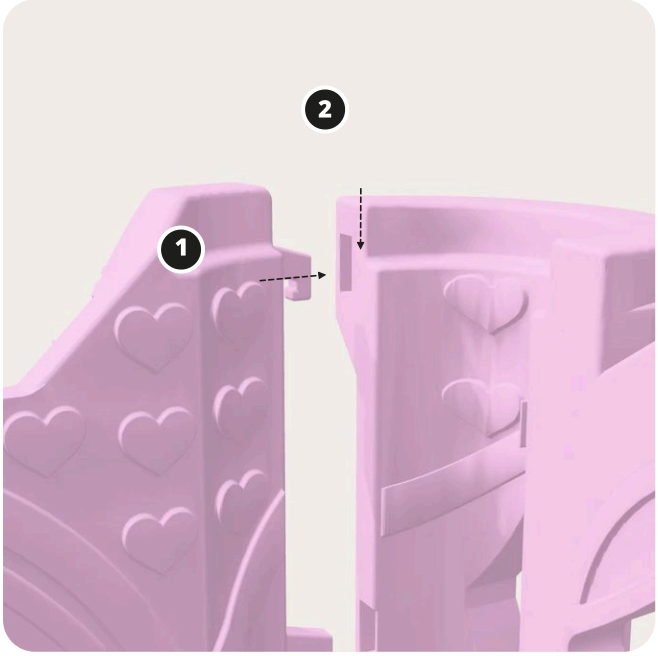

In each step, the arrows show where the part goes, the **black numbers** give the order and the **yellow letters** point to the details explained under the picture.

1 STEP 1 OF 5 · WALLS
Side wall with the planter

A Back wall

B Side wall with the planter

The hook goes into the slot (1) and drops (2)

Stand the **back wall** up (the wall with two towers and the fountain). Bring up the **side wall with the window and planter**, with the planter **facing out** and the **hooks** towards the back wall.

Lift the side wall about **3 cm**, fit the **3 hooks** into the **3 slots** of the tower and **lower** the side wall to the floor: the hooks lock.

> Assemble with the help of another adult, to hold the walls upright.

PARTS FOR THIS STEP

1× Back wall ref. 1830902

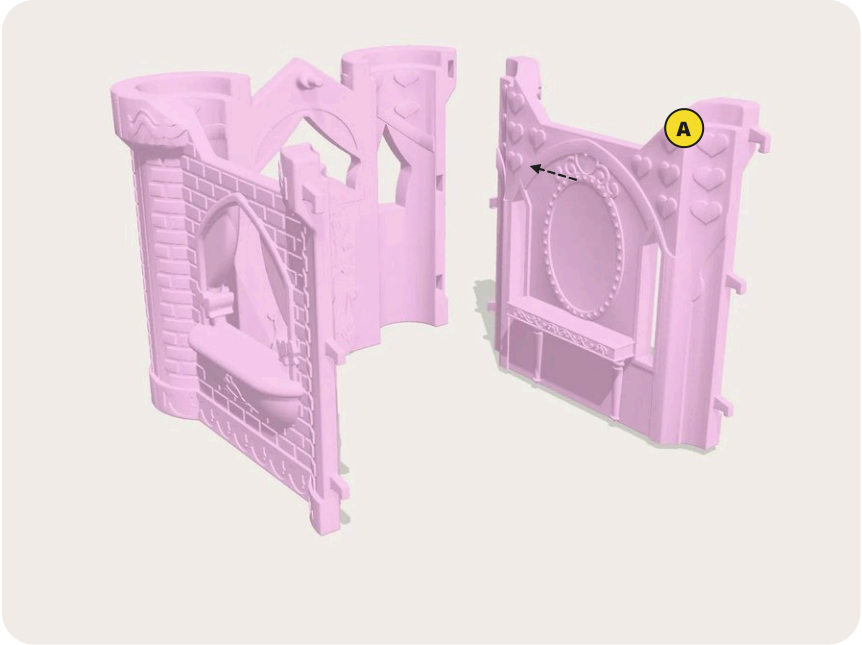

1× Side wall with the planter ref. 1830904

How it looks at the end of step 1

STEP 2 OF 5 · WALLS

2 Brick side wall

A Brick side wall

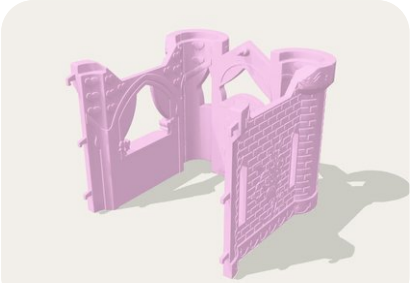

Do the same with the other **side wall** (the brick one, with two narrow windows) on the other tower of the back wall: lift about 3 cm, **hooks into slots** and lower.

The two side walls are now parallel, with their front hooks free.

PARTS FOR THIS STEP

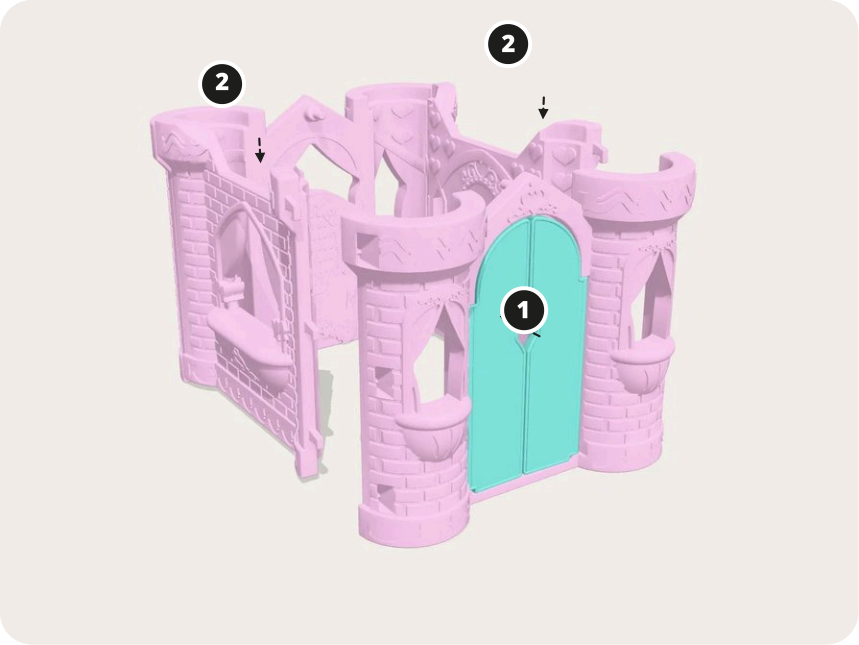

1× Brick side wall ref. 1830903

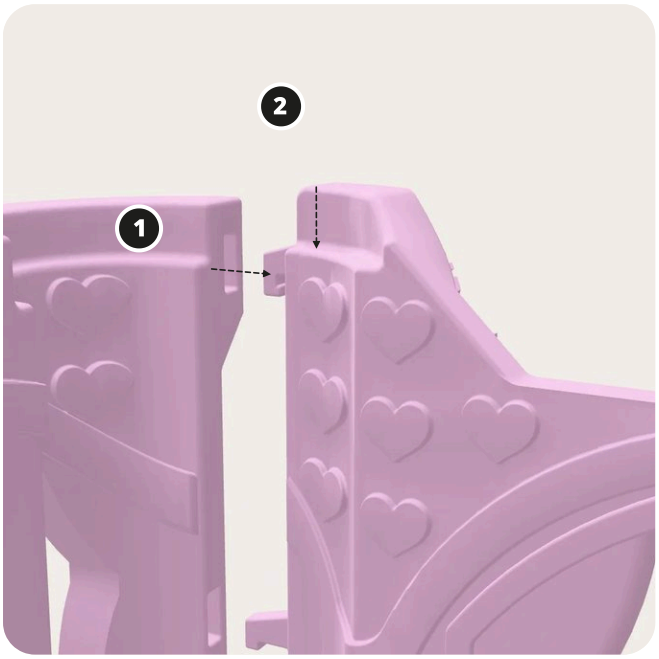

How it looks at the end of step 2

STEP 3 OF 5 · WALLS

3 Front wall with the doors

The front wall comes in (1) and the side wall hook drops into the slot (2)

Bring the **front wall** (the **doors come already fitted**) up to the two side walls (1), with the tower slots facing the hooks.

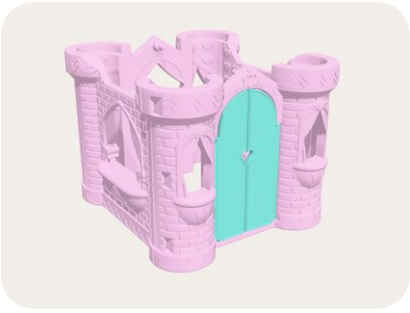

Lift the end of each side wall **a little** (about 3 cm), push the front wall in until the **hooks go into the slots** and **let the side walls down** (2): the hooks drop and lock the front wall.

> It is easier with two adults: one lifts the side wall and the other pushes the front wall.

PARTS FOR THIS STEP

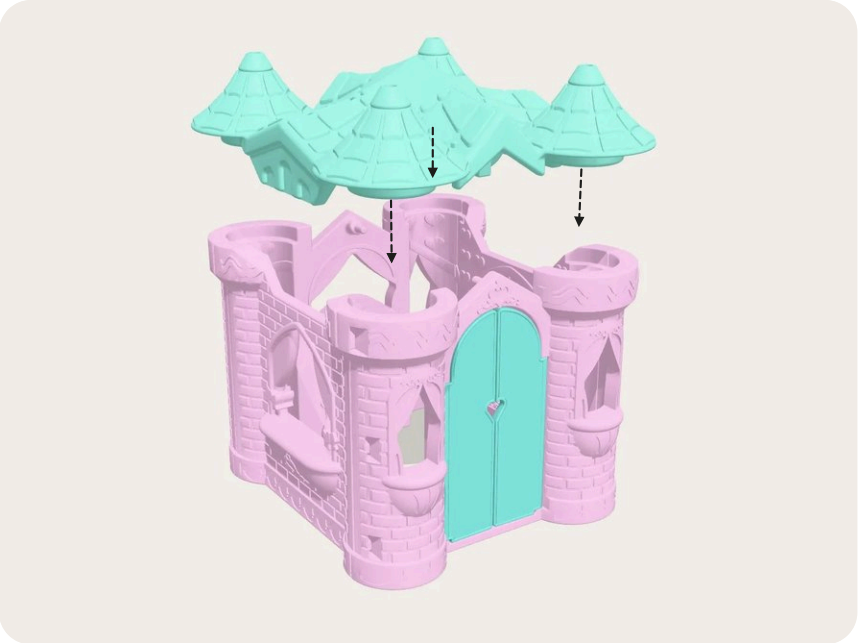

1× Front wall with the doors ref. 1830901

How it looks at the end of step 3

STEP 4 OF 5 · ROOF AND FLAGS

4 Roof

The round base of the roof tower goes into the top of the tower

With the help of another adult, lift the **roof** and lower it **straight down** onto the walls.

The **four roof towers** fit onto the **four towers** of the castle. Check that the roof is seated all the way round.

PARTS FOR THIS STEP

1× Roof
ref. 2061002

How it looks at the end of step 4

STEP 5 OF 5 · ROOF AND FLAGS

5 Flags

Fit a **flag** into the hole at the top of each roof tower and press until it is firm.

There are **4 flags**, one on each tower.

PARTS FOR THIS STEP

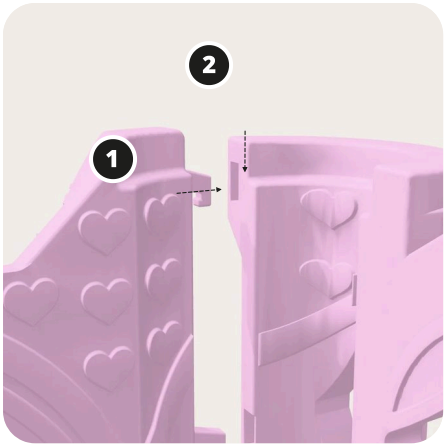

4× Flag
ref. 1830909

The flag peg goes into the hole at the top of the tower

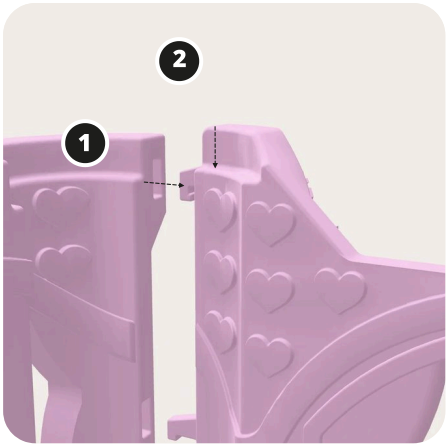

JOINT DETAILS

How each part fits

Side wall to back wall

3 hooks into 3 slots of the tower: the side wall goes in lifted about 3 cm and drops to the floor.

Front wall to side walls

Lift the end of each side wall a little, push the front wall in and let go: the hooks drop into the slots of the front towers.

Roof

Straight down: the round base of each roof tower goes into the top of a tower.

Flags

The flag peg goes into the hole at the top of the roof tower.

Assembly complete

Check the product visually, making sure every part is fitted and firmly fastened. **Only then let children use it.**

Before letting children use it, check that the side wall hooks have dropped into the slots of all four towers, that the roof is seated all the way round and that the 4 flags are firm.

INSTALLATION DETAILS

Location and safety area

To keep users safe, minimum spaces and free distances must be respected.

Circulation area: at least 1.20 m wide around the equipment, so users can run freely; at least 1.50 m where the path changes direction, so strollers and wheelchairs can get in and turn.

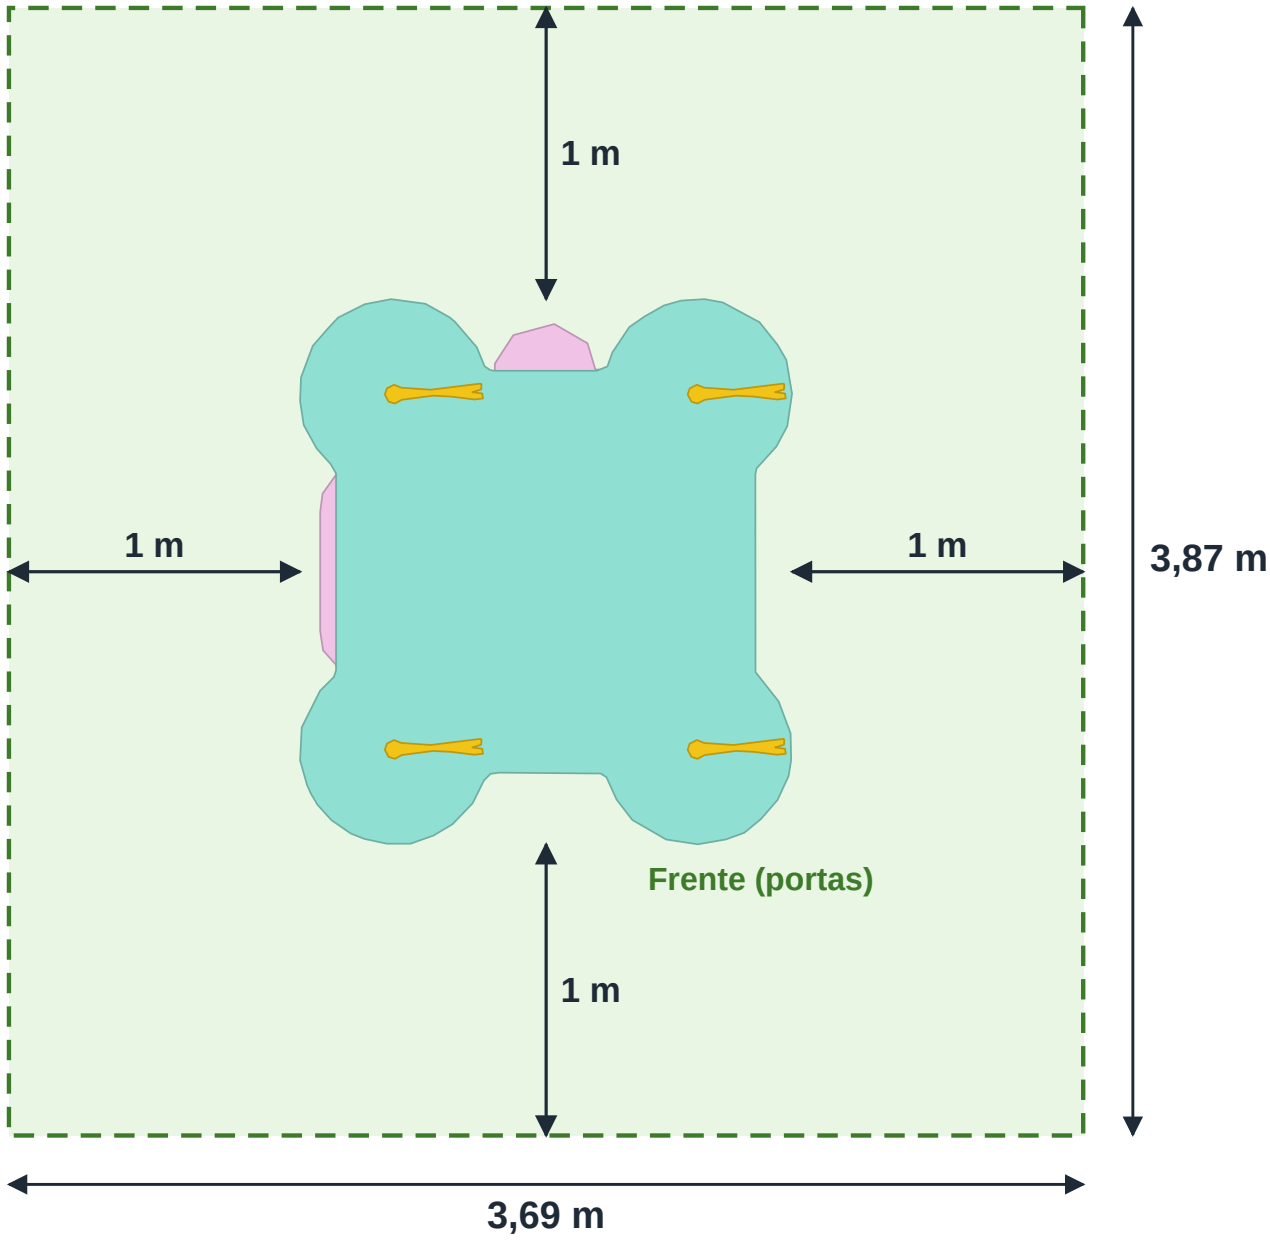

Ground: an even, continuous, stable surface that is non-slip in any weather, with no obstacles and a cross slope of no more than 2%. Use on grass, sand, carpet or another soft, level surface.

Location: first check for chemicals and loose material (rubble, sharp objects). Choose an airy place with morning sun, sheltered from drafts; do not install it in basements or garages. Never use it near stairs, roads, swimming pools, water or slippery places. If the area is fenced, the gates must open outwards and be at least 1 m wide.

Area reserved for installing this castle: about **3.7 × 3.9 m** (figure below): 1 m clear all around the castle.

Use: do not climb on the roof, the windows or the planters, and do not hang on the doors.

To avoid accidents, the child should wear shoes. This product is not intended for commercial use.

Area reserved for installation and impact (top view). Keep the dashed area free of obstacles.

INSPECTION AND MAINTENANCE

Keep the playground safe

Visual inspection — daily

- Cleanliness
- Free distances between the ground and the equipment
- Ground surface finish and exposed foundations
- Sharp edges and missing components
- Excessive wear and structural integrity

Operational inspection — every 1 to 3 months

Pay special attention to the structural integrity of the product, besides the items of the visual inspection.

Main inspection — yearly

- Structure: bending, deformation and cracks
- Finish: cracks, chips, broken or open joints
- Missing, bent, broken, loose or worn parts
- Edges, pinch points, access points and protective surfaces
- Side wall hooks in the tower slots, roof seated and flags firm
- Door hinges

Maintenance

- Tighten the joining parts and clean (do not use paints, solvents or other chemicals)
- Keep the free spaces and drain holes clean
- Replace fasteners and faulty or worn parts

As per NBR 16071-7:2012. Any change that affects safety only after consulting the manufacturer.
