Goleira Super Copa

ref. 2079.8

ASSEMBLY INSTRUCTIONS

Assembly video on YouTube:
youtu.be/VNc58ZdJin0

Product size: **0,91 × 0,37 × 0,66 m**
MDF goal with net, target and ball
Age: 3+ years.
Assembly by an adult, no tools needed.
8 steps · keep this manual for future reference.

BEFORE YOU START

Read carefully

Caution

WARNING! NOT SUITABLE FOR CHILDREN UNDER 3 YEARS BECAUSE IT CONTAINS SMALL PART(S) THAT MAY BE SWALLOWED OR INHALED AND LONG CORD(S) THAT MAY CAUSE STRANGULATION.

WARNING! THIS TOY SHOULD ONLY BE GIVEN TO THE CHILD AFTER IT HAS BEEN ASSEMBLED BY AN ADULT.

Age: **3+ years**.

Keep this manual for future reference.

Assembly rules

- Assemble on **level ground**, with someone else holding the side panels.
- Start with the **bottom crossbar**, which holds the side panels together; the **target** is the last part.
- The parts **fit together without tools**: do not force them. If a joint does not go in, check that the part is facing the right way.
- The printed side of the side panels always faces **out**.
- The **holes** at the ends of the crossbars stay outside the side panels.

Tools

- **No tools needed** to assemble the goal
- **Air pump with a needle** to inflate the ball (not included)

The goal only uses slot-in joints: there are no screws.

PRODUCT ASSEMBLY

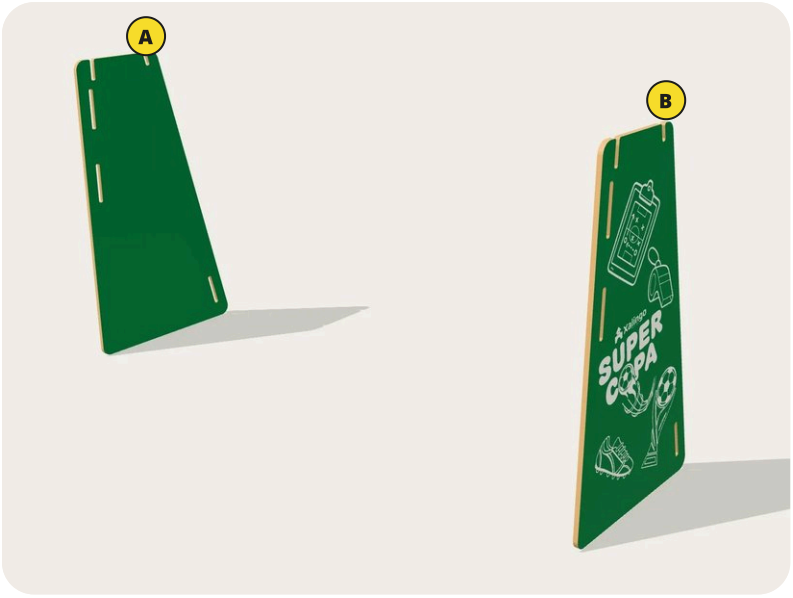

Step by step

In each step, the arrows show where the part goes, the **black numbers** give the order and the **yellow letters** point to the details explained under the picture.

---

1 STEP 1 OF 8 · SIDE PANELS AND CROSSBARS

Side panels upright

A Left side panel (gloves)

B Right side panel (clipboard)

Left panel: gloves facing out

Right panel: clipboard facing out

Stand the two **side panels** up, **a little apart**, with the **printed side facing out** and the **straight edge at the front** (the slanted edge goes at the back).

Looking at the goal from the front, the panel with the **gloves** goes on the **left** and the panel with the **clipboard** on the **right**.

> Ask someone to hold the side panels upright until both crossbars are in place.

PARTS FOR THIS STEP

1× Right side panel (clipboard) ref. 2079802

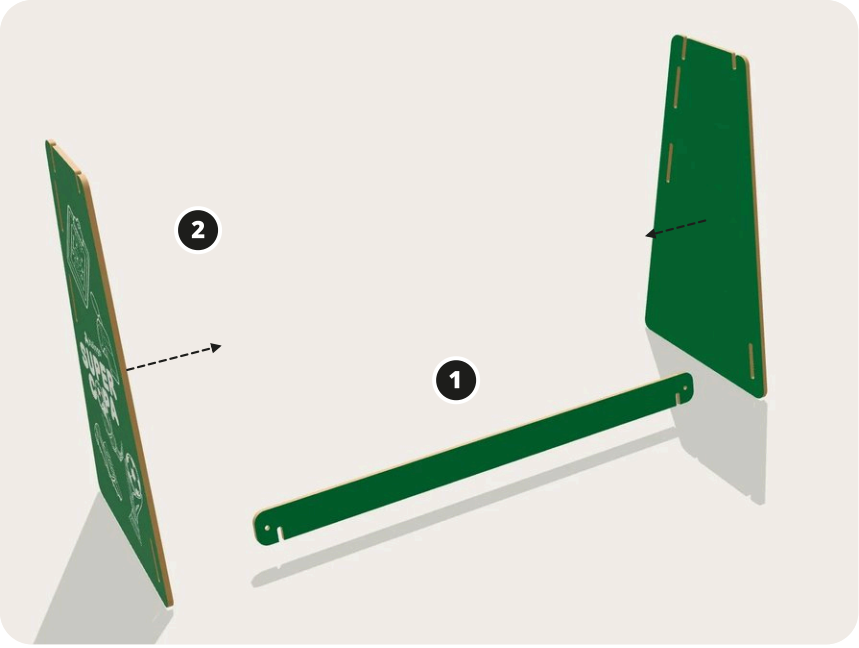

1× Left side panel (gloves) ref. 2079803

How it looks at the end of step 1

STEP 2 OF 8 · SIDE PANELS AND CROSSBARS

2 Bottom crossbar

Start with the **bottom crossbar**: hold it **in the middle**, between the side panels, at the height of the **low openings at the back**, with the **slots facing down**.

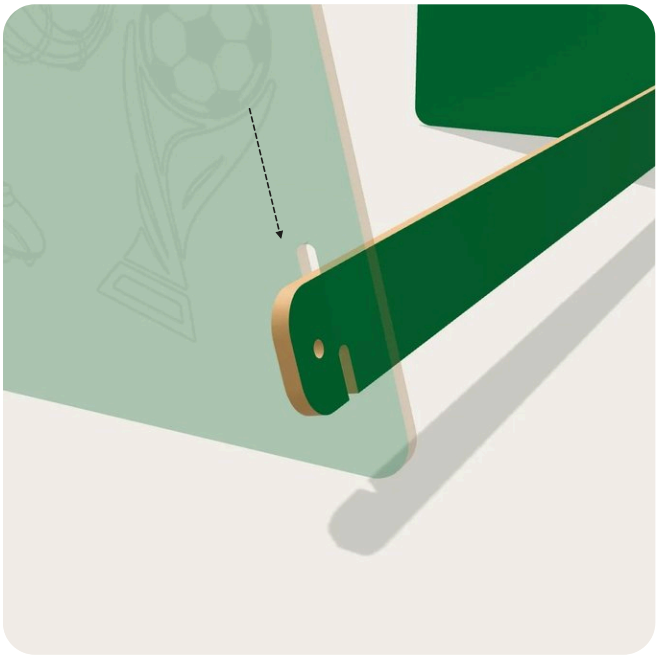

Bring the side panels in from the sides until the ends of the crossbar go into the openings. Then **lower** the crossbar until the slots lock onto the side panels: the side panels are now held together.

PARTS FOR THIS STEP

1× Crossbar ref. 2079804

How it looks at the end of step 2

The crossbar drops and its slot locks below the opening

STEP 3 OF 8 · SIDE PANELS AND CROSSBARS

3 Top crossbar

Lower the other **crossbar** straight down onto the top front of the side panels: the **slots in the crossbar** fit into the **slots at the top of the side panels**.

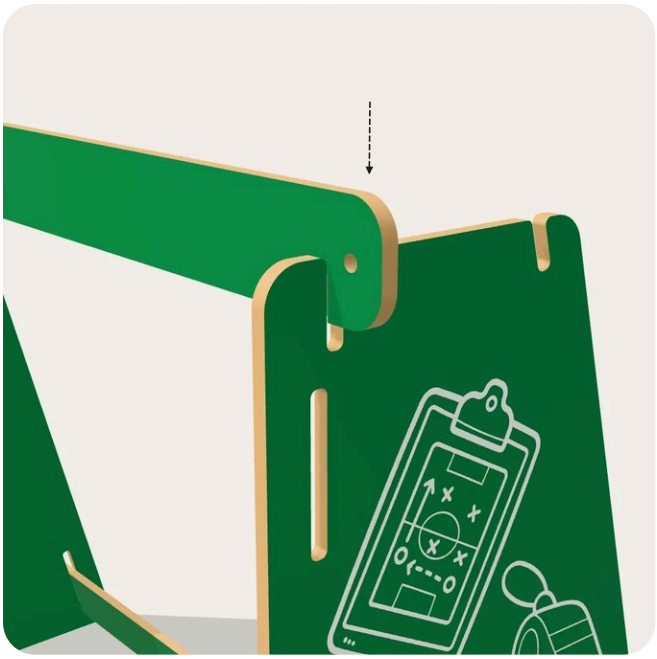

The ends with a **hole** stay outside the side panels. Push it down until the crossbar is level with the top of the side panels.

PARTS FOR THIS STEP

1× Crossbar
ref. 2079804

How it looks at the end of step 3

Slot into slot: the crossbar goes all the way down

STEP 4 OF 8 · NET AND CORDS

4 Net

A Ends of the top crossbar

B Top back slots of the side panels

C Ends of the bottom crossbar

End of the top crossbar

Top back slot of the side panel

Lay the **net** over the goal: one part goes on top and the other hangs down at the back, to the bottom crossbar.

Attach the net to the **fixing points** on both sides: the **ends of the top crossbar** (A), the **top back slots of the side panels** (B) and the **ends of the bottom crossbar** (C).

PARTS FOR THIS STEP

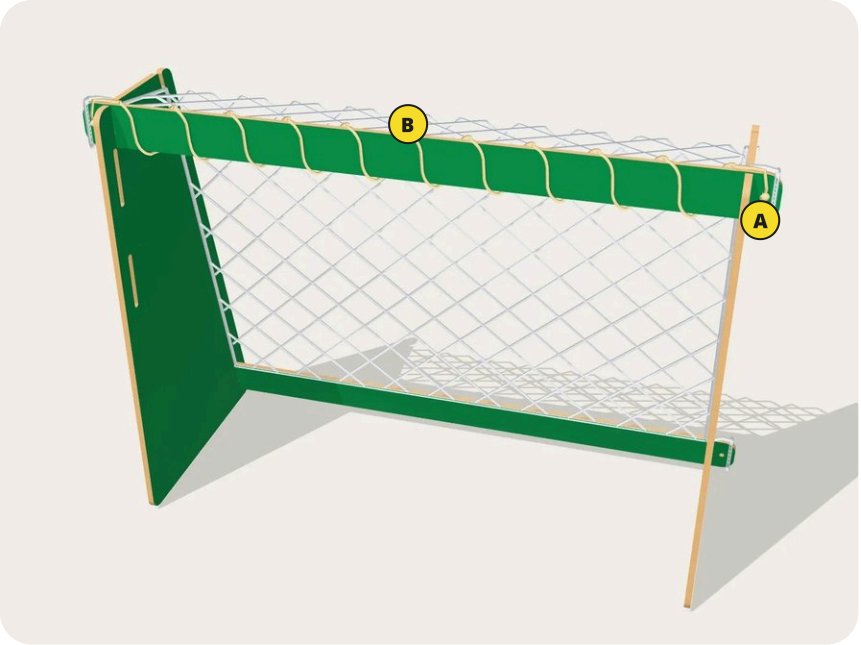

1× Net diamond mesh

How it looks at the end of step 4

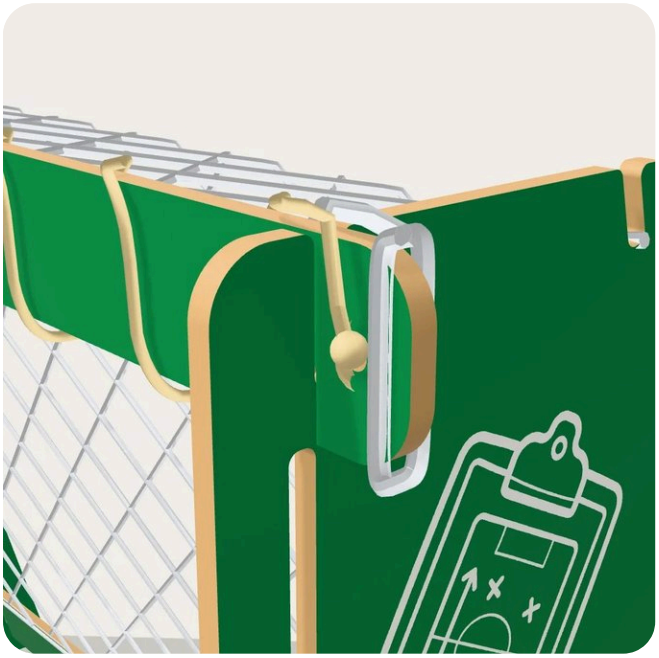

STEP 5 OF 8 · NET AND CORDS

5 Cord on the top crossbar

A Knot at the end hole

B One turn through each mesh

Knot at the hole in the crossbar end

There are **2 cords**: one for each crossbar. Tie one end of the first **cord** to the **hole at the end of the top crossbar**.

Wind the cord around the crossbar, passing it through **each mesh of the net**, to the other end, and tie it to the **other hole**.

CAUTION
Keep the cord ends short after the knots: long cords can cause strangulation.

PARTS FOR THIS STEP

1× Cord
one on each crossbar

How it looks at the end of step 5

STEP 6 OF 8 · NET AND CORDS

6 Cord on the bottom crossbar

A Knot at the end hole

B One turn through each mesh

Knot at the hole in the bottom crossbar end

Do the same with the **second cord** on the **bottom crossbar**: tie it to the hole at one end, pass it through the opening of the side panel, wind it around the crossbar through **each mesh of the net** and tie it to the hole at the other end.

CAUTION
Keep the cord ends short after the knots: long cords can cause strangulation.

PARTS FOR THIS STEP

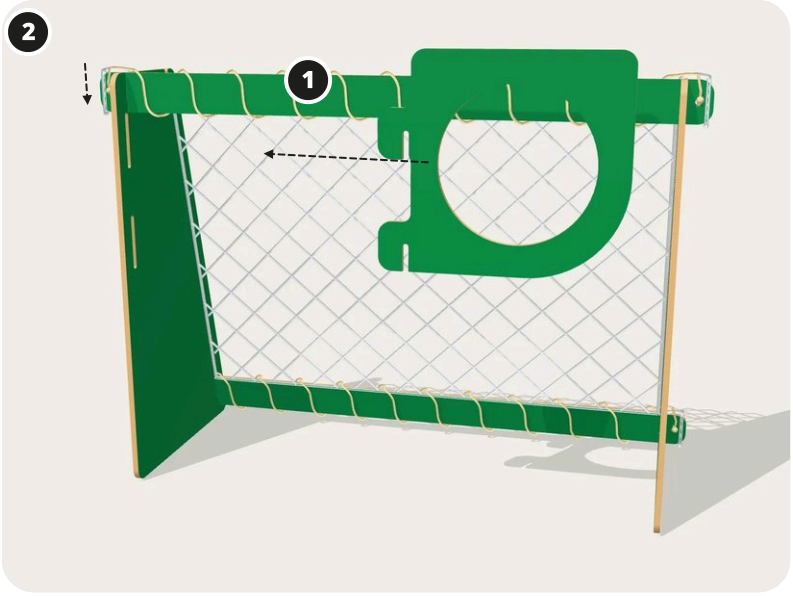

1× Cord
one on each crossbar

How it looks at the end of step 6

STEP 7 OF 8 · TARGET AND BALL

7 Target

The **target** is the last part. From inside the goal, move the target sideways, passing its **2 hooks** through the slots at the front of the side panel.

Then **lower** the target until the hooks lock onto the side panel.

> **NOTE:** the target can be fitted on the **left** or on the **right** side panel: both have the same slots. For the right side, turn the target around.

PARTS FOR THIS STEP

1× Target with 2 hooks

The hooks go through the slots and drop

It can also go on the right side panel

How it looks at the end of step 7

STEP 8 OF 8 · TARGET AND BALL

8 Ball

The **ball comes deflated**. Inflate it with an **air pump with a needle** (not included).

Wet the needle before putting it into the valve and inflate until the ball is firm, without overdoing it.

> **NOTE:** ball colors may vary.

PARTS FOR THIS STEP

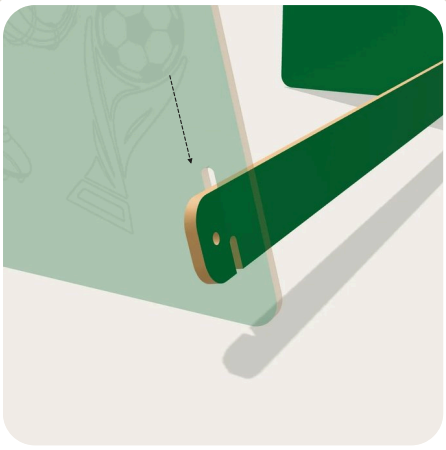

1× Ball comes deflated · colors may vary

Ball colors may vary

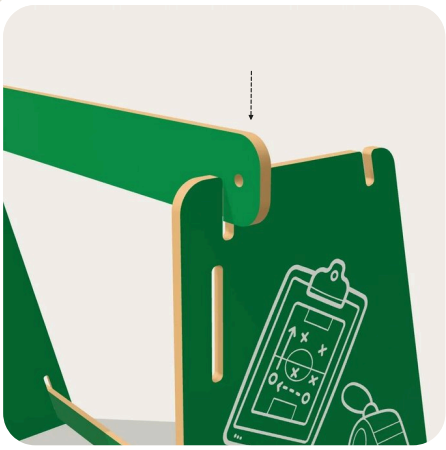

FASTENING DETAILS

How each part fits

Bottom crossbar

It sits in the middle and the side panels come in: its ends go into the low openings at the back. Then it drops and locks.

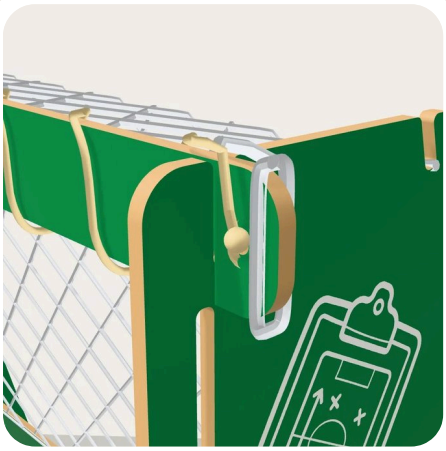

Top crossbar

Goes straight down: the slots in the crossbar fit into the slots at the top of the side panels.

Net

Attached to the ends of the crossbars and to the top back slots of the side panels, on both sides.

Cords

One on each crossbar: tied to the holes at the ends and wound around the crossbar through each mesh of the net.

Target

The 2 hooks go through the slots at the front of the side panel and drop until they lock. It can go on the left or on the right side panel.

Assembly complete

Check the product visually, making sure every part is fitted and firmly fastened. **Only then let children use it.**

Before playing, check that both crossbars went all the way down, that the net and the 2 cords are attached at every point and that the target hooks are locked.

USE AND CARE

Before playing

Where to set it up

- Set it up on **level ground**.
- Preferably use it **indoors**: do not leave the goal outdoors, in the sun or in the rain.
- Leave free space around the goal, away from stairs, glass and furniture with sharp corners.

To play safely

- Always use under adult supervision.
- **Do not hang from or climb on the crossbar**: the goal may tip over onto the child.
- Use it **only with the ball that comes with the product**.

CARE

Keep the goal safe

Before each use

- Crossbars fully fitted and target hooks locked
- Net attached at every fixing point and both cords well tied, with short ends
- Parts without cracks, chips or splinters

Care

- Clean with a dry or slightly damp cloth; do not use solvents or chemicals
- Store in a dry, covered place
